

Math 2300 (Spring 2020) — Final Exam Topics

- *Previous Topics*
 - Work problems
 - Center of mass
 - Shell method
 - Average value of a function
 - Integration techniques
- *New Topics*
 - Differential equations
 - Slope fields
 - Euler's method
 - Separable differential equations
 - Growth and decay, logistic equation
 - Parametric equations
 - Arc length
 - Graphing polar equations
 - Integrating polar equations
