

The background features a complex, abstract mathematical visualization. It consists of several overlapping, colorful regions. On the left, there are fractal-like patterns in shades of red and orange, resembling a Sierpinski triangle or similar self-similar structure. To the right, there are vertical, wavy bands of color transitioning from blue to green to yellow. The overall composition is dynamic and geometric, set against a dark background.

Q.E.D. CU MATH CLUB PRESENTS

*DYNAMICAL SYSTEMS,
CHAOS, AND MY DAD'S
FAVORITE NUMBER*

PROF. ROBIN DEELEY

OCTOBER 20, 2021 | 4 PM | MATH 350
