

CU Boulder Alerts

CU Advisory

Boulder Fire-Rescue and CU Boulder Environmental Health & Safety have cleared the Muenzinger, Gold and Porter buildings, and Buff Bus routes have resumed as normal. Classes in the buildings have resumed as normal.

[11:15 a.m. | Feb, 12, 2024]

Boulder Fire-Rescue and CU Boulder Environmental Health & Safety have cleared the Muenzinger, Gold and Porter buildings, and Buff Bus routes have resumed as normal. Boulder Fire-Rescue will work to determine the cause of the haze.

Classes will resume as normal for the remainder of the day. Please continue to use caution in the area due to water use and possibly slippery conditions.

[10:30 a.m. | Feb, 12, 2024]

Boulder Fire-Rescue is still on scene. Buff Buses are temporarily rerouted to Regent Drive to UMC and back. If you are at a stop along Colorado Ave, walk to Regent or walk up to UMC.

[9:54 a.m. | Feb, 12, 2024]

Boulder Fire-Rescue was dispatched to the Muenzinger Building at 18th and Colorado for a fire alarm at around 9:30 a.m. Friday, Feb. 12. When BFR crews arrived, they saw haze in the building, but no active fire. BFR will remain on scene to determine the cause of the haze.

The Muenzinger Psychology, Gold Biosciences and Porter buildings have all been evacuated and will remain evacuated until the investigation is complete. Additionally, because of the building's proximity to the 18th and Colorado bus stop, Buff Buses have been rerouted to avoid the area.

Please avoid Colorado Avenue between 18th and Folsom due to fire crews and water creating icy conditions.

How to Receive Alerts

Anyone with an @colorado.edu email address is automatically registered to receive emergency and safety alert emails. To improve your situational awareness, it is also recommended to opt in with a mobile number during class registration or onboarding as a new

employee.

If you're in Boulder regularly, sign up for [city of Boulder alerts](#) to ensure you're receiving the latest emergency updates as they happen.

The Boulder Office of Disaster Management distributes emergency alerts for significant incidents, including natural disasters, via a system called [Everbridge](#). Community members with Boulder addresses are automatically [opted-into the Everbridge system](#). Those who live outside of Boulder but want to be aware of emergency notifications in the area [must sign up](#) for BoCo Alerts.

How to Find Information in an Emergency

In addition to receiving alerts directly to your cellular phone or email, a number of resources are available to keep you informed.

[Find Information](#)

Alert Levels

CU Emergency Alert

What it is:

Emergency notification to the campus when there is a confirmed immediate threat to the safety of those on campus, [or near campus in areas of high student populations](#), or if there is a change to the university's operating status due to weather, etc.

When we do it:

Emergency threats include natural disasters, active harmers, severe weather, time-sensitive life safety concerns, campus closures, delayed starts and other on-campus emergencies.

CU Safety Alert

What it is:

Email notification to the community of a crime committed on or near campus ([per Clery Act guidelines](#)) that provides increased community awareness of ongoing or dangerous situations.

When we do it:

CU Safety Alerts include criminal homicide, sex offenses, robbery, aggravated assault, burglary, motor vehicle theft, arson, hate crimes, domestic violence, arrests and referrals for drug, alcohol or weapons violations.

CU Advisory

What it is:

Notification to the campus that does not rise to the level of an emergency notification or safety alert but is high-profile enough that our campus community benefits from awareness.

When we do it:

CU advisories are for non-emergency events/incidents on campus or both emergency and non-emergency events off campus that could potentially impact campus, such as extended power failures, building evacuations, sudden road closures or other traffic/

construction impacts on or near campus, as well as police activity near campus.
