

Math 2001 - Assignment 0

Due January 19, 2018

You do not need to hand this in but please bring your notes to class on Friday.

- (1) Read Section 1.1 Introduction to sets in [1].
 - (a) Write down all names and mathematical concepts (e.g., set, element of a set, ...) that are new to you. Find your own examples and non-examples for them.
 - (b) Write down questions about anything that is not clear to you.
