

Index of words
(through Chapter 4)

atomic equality formula.....	25
atomic formula	25
atomic non-equality formula.....	25
change of bound variables.....	47
completeness theorem 1.....	70
completeness theorem 2.....	70
completeness theorem 3.....	70
completeness theorem.....	13
complete.....	62
composition operations.....	87
conjunction.....	27
consistent.....	58
deduction theorem.....	14
disjunction.....	27
disjunctive normal form.....	12
disjunctive normal form.....	31
equality.....	19
equivalence class.....	63
equivalence relation.....	63
equivalence.....	27
existential quantifier.....	27
expression.....	1
finite language.....	66
finite sequence.....	1
first-order deduction theorem.....	58
first-order language.....	20
fixed point theorem.....	89
formula construction sequence.....	25
formula.....	25
generalization.....	35
Gödel 's incompleteness theorem.....	91
Gödel number.....	85
holds.....	27
implication symbol.....	1
implication.....	19
individual constants.....	20
induction on formulas.....	25
induction on sentential formulas.....	3
logical axioms.....	33
minimalization.....	88
model.....	27
model.....	30

model	58
modus ponens	35
negation symbol	1
negation	19
non-exclusive or	5
occur bound	41
occur free	42
Peano arithmetic	84
Peano postulates	28
prenex normal form	54
primitive recursion	87
projection function	87
proves	35
quantifier free	54
recursive function construction sequence	88
recursive functions	87
recursive function	88
recursive relation	88
relation symbols	20
representable function	88
representable relation	89
rich	62
satisfied	27
sentence	58
sentential assignment	4
sentential axioms	12
sentential formula construction	2
sentential formula	2
sentential variables	1
simple definitional expansion	71
special function	88
standard formula	74
structure	22
subformula	41
substitution of equals for equals	45
successor function	87
symbols	19
symbols	1
Tarski's undefinability of truth theorem	90
tautology	30
tautology	5
term construction sequence	20
term	21
theory	71

truth tables	4
unique decomposition theorem	85
universal quantifier	19
universal specification	48
universally valid	30
universe	19
universe	22
variables	19
