

Reading for Week 3

- Please re-read Parts C(i) and C(ii) of S-POP, paying particular attention to such notions of mathematical logic and argument as: the converse, the contrapositive, counterexamples, if and only if statements and proofs, $A \subseteq B$ and $A = B$ statements and proofs.
- Please read Sections 1.6–1.7 (pp. 21–23) of T-BOP.
